When You Need an Article for a Research Project

Start on the Library
Catalog Search Page:
usml.edu/library/

Then click Search

Searching the Catalog

The pull-down menu on the search bar offers three search options.

How does this work?

- 1 **All USMLSearch:** Search the USML library catalog for articles, journals, book chapters, dissertations, and more.
- 2 **USML Library Catalog:** Search the USML library catalog for physical and electronic books and journals.
- 3 **All I-Share Libraries:** Search the USML library catalog and the catalogs of over 90 academic libraries in Illinois for books. You may request books from I-Share libraries and have them delivered to the USML library for pick up.

Searching the Catalog

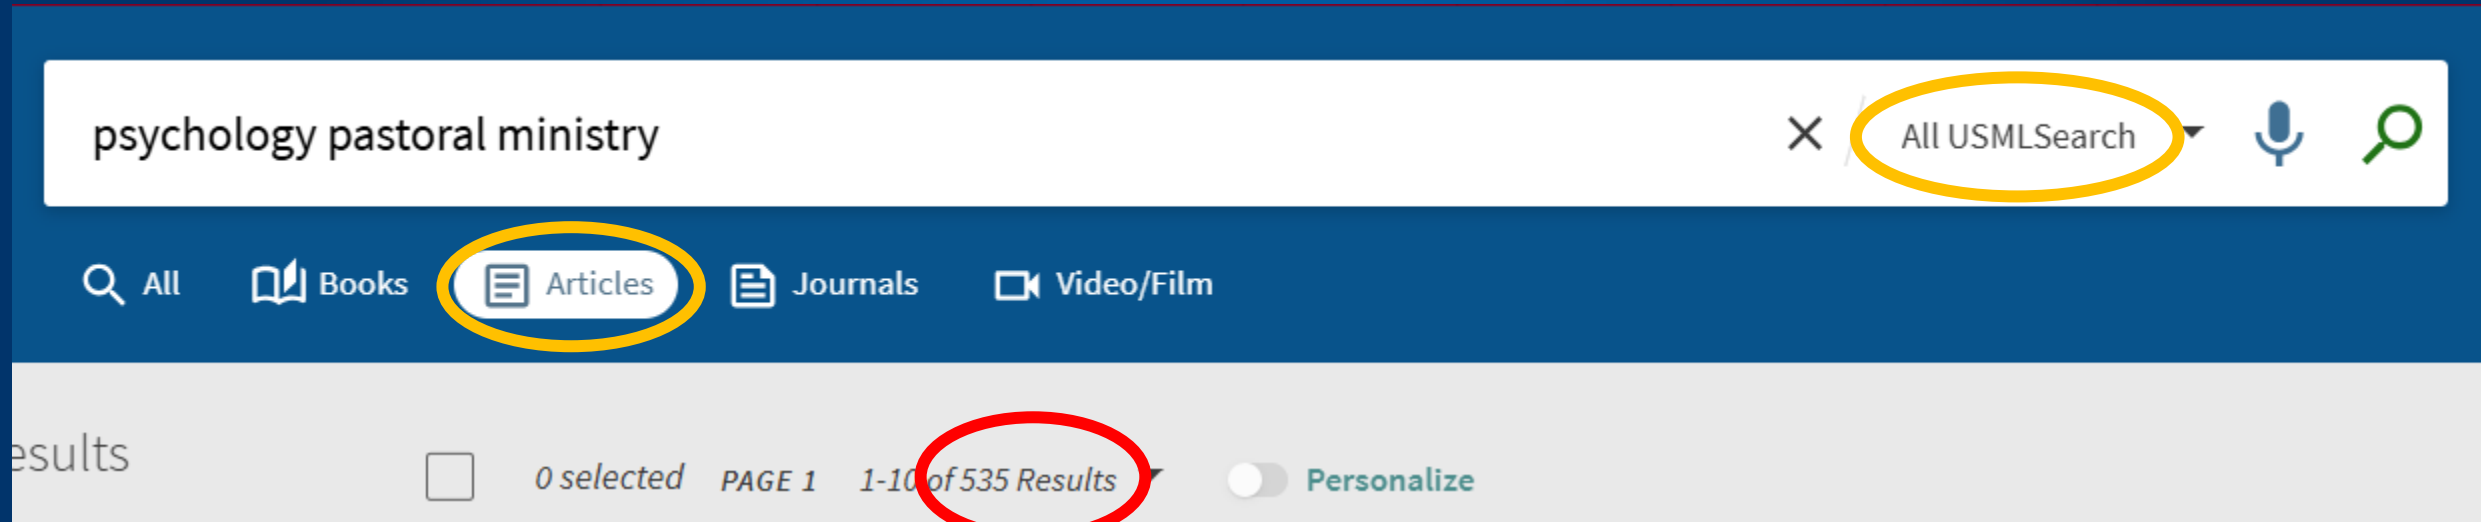

- 1 Using the search criteria All USML Search provides results for articles, journals, book chapters, dissertations, etc., but for this example we only want articles.
- 2 One way to narrow the search is to limit the results further using these filters.

Search by Subject

Search for this subject:

Articles on the
Psychology of Pastoral Ministry

Search by Subject

Using the search criteria: **All USML Search** and **Articles** produces 535 results.

Refine the Results

For this example, further refining the search by subject may be helpful.

Filtering by Psychology would reduce the results to 160;
Filtering by Clergy would reduce the results to 148.
